

SPORT GROUP 2019 PROJECT OF THE YEAR

GRAND SLAM SURFACES

CAULFIELD TO DANDENONG SKY RAIL • *Victoria, Australia*

This project consisted of surfacing six different areas across Noble Park, Clayton and Carnegie to create vibrant community activation spaces following Victoria's largest rail project ever undertaken. Removing the level crossings and moving the train system into the air resulted in 22.5 hectares of open community space including 17km of park and bike paths under the sky rail. Grand Slam was awarded all six areas of sports courts which were transformed using a combination of standard and vibrant Laykold colours that make the newly concreted areas an active playground for the surrounding community.
